Trees For Houston's goal is to plant, promote, and protect Houston! Some ways we do so is through tree giveaways, plantings, and events! If you have any questions, comments, or would like to get involved, please direct them to [Bailey@treesforhouston.org](mailto:Bailey@treesforhouston.org)

# BARBADOS CHERRY

*Malpighia emarginata*

Height: ~12 ft

Shade: Full sun to partial shade.

Conditions: Requires moist, well- drained soil when first growing. Once established mature plants are drought tolerant.

Comments: Small pink flowers are followed by bright red, sweet to tart-tasting, 1- inch fruits that are high in vitamin C. Trees are self-fertile and produce for months when watered well.

# BILOXI BLUEBERRY

*Vaccinium 'Biloxi'*

Height: ~5-6 ft

Conditions: Full sun preferred but will tolerate partial shade

Comments: Self-fertile plant with small-medium blueberries. Low to no chill hours and has long harvesting season (April-July)

# BROWN TURKEY FIG

*Ficus carica 'Brown Turkey'*

Height: ~10-30 ft

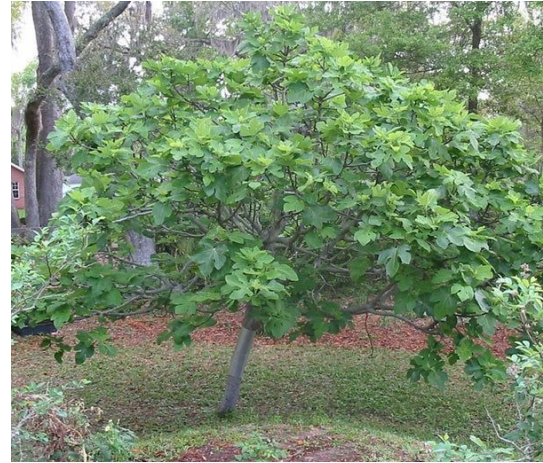

Shade: Full sun preferred

Comments: Self pollinating multi-stemmed woody shrub that produces two rounds of sweet fruit per year.

Note: Once picked figs stop ripening so make sure the fruit is ready before picking!

# Florida King Peach

*Prunus persica*- “Florida King”

Height: ~15 ft

Shade: Full sun preferred

Comments: This self pollinating tree produces a large sweet peach May to Early June. Tree begins to bear fruit at age 3 and only needs 150 chill hours under 45 degrees to produce fruit.

# HOSUI PEAR

*Pyrus pyrifolia 'Hosui'*

Height: ~8-20 ft

Shade: Full sun

Comments: Self Pollinating tree that produces round pears that ripen in August, beautiful white flowers in the spring, and orange-red fall color.
